

Everybody Session

All Tracks representing each Mark of Mission get together to present main results.

Jan Wessels presents a Wrap-up in the final session.

Strengths

- Church is there, solid base for a lot of our work.
- Scripture is our priority and strength. We are people of the Bible and want to work close to God's Word.
- Prayer is important as a strength of the evangelical movement.

Opportunities

We are people who are in this world and it is great to see how people are involved in all sorts of things.

- Getting younger people on board.
- People from other cultures are coming to Europe and enrich our work.

Aspirations

- Importance of discipleship when we think of it as something we need to develop and strengthen, together with a clear theology on several topics (justice, creation care, reaching other people).
- We would really like to see a multi-generational EEA, and so we are looking to strengthen networks of youth and youth representation in the EEA
- But also new people coming into Europe, doing a wonderful job, social work, reaching out to the needy, but also evangelising, many times they have come as missionaries to Europe, and to really include them in this movement is really very important.

Results

It was really exciting to hear the concrete suggestions and steps that came out.

- Young people: how can we help young people in this movement of bringing the Gospel to other people?

- Ideas of bringing young people to the next GA.
- Job creation network.
- Sharing good examples, best practices. This is something the EEA, as a platform, we can do through our communication, but we hope that that will also be used by the NEA.

Just thinking about the Group I was with, 8 people together throughout the day, some of us dealing with a topic not all of us were comfortable with, but that is sometimes how it is, as evangelical leaders, we are not the top leaders in everything, but to have a vision and a mission in these kinds of things is still important and it is great that something comes up, and you can see that the Holy Spirit is guiding us.

I am really excited about this process where we are involving the stakeholders of the EEA, and I also hope you enjoyed this process too.
