

Track 1: Proclaiming in Truth

Mark 1: "TELL" – To Proclaim the Good News of the Kingdom

Working Groups 1 & 2

We long to see all evangelical Christians engaged in evangelism on the personal level and see the church rejuvenated as a family of grace. Therefore, we suggest:

1. To inspire Christians with stories of transformed lives, churches, and pockets of movements; that these be collected and shared on all EA levels in Europe.
2. To train believers in effective ways of communicating the gospel.

We suggest small partnerships in evangelism between national EA's / networks / parachurch ministries to encourage and help one another and strengthen the root system of the EA in this way. We are in this together!

We encourage the strengthening of a Europe-wide network of evangelists, helping them to be rooted in and feeding into local churches.

We encourage the EEA to revitalize the youth network by engaging them in special evangelistic efforts Europe-wide.

We see it as absolutely necessary to engage with Diaspora and Migrant churches in Evangelism.

Keep our focus on proclamation and explanation of the content of the message of the Gospel (see 1 Cor. 15). We suggest using the Internet on many platforms for training in this.
